

Stationers

court for the great honour they paid me on the 24th but I hope you will convey to them my sentiments, & assure them that that evening has done much to soften what is otherwise a severe wrench - for I was deeply interested in my work at music when the dreadful conviction that I should have to relinquish it finally obtained possession of me.

Thank Sir William Lancaster, Thank Lady Cooper, M de Lafontaine, Thank all in fact; & for yourself, dear Mr Fenwick, I know how much you must have put your heart into it to make the occasion the success it was - May I thank you - too?

With kindest regards

Yours sincerely
